Hi. Nancy Browne took the following notes:

### Fracking

- Wednesday – House Science Subcommittee hearing (or is it a GAO thing – some confusion) – Jim Martin will represent EPA
- ATSDR has done Health Consultations at Pavilion and Dimock
- ATSDR just received another request from Region to do another HC at Pavilion
- irrigation well may have higher than normal uranium concentrations
- alleged may be fracking related
- R8 had two meetings last week with the Tribes on the Pavilion site
- R3 has added 11 more contractors to keep pace with sampling at Dimock
- CNN interested in shooting footage at/near Dimock
- expect many more responses to information requests from Cabot
- ORD – meeting this week on coordination at Pavilion
